Loop 1604
From US-90 to IH35
CSJs: 2452-01-066 and 2020-02-031
Bexar County, Texas**

The Texas Department of Transportation (TxDOT) is proposing to widen Loop 1604 from US-90 to IH-35, in San Antonio, Bexar County, Texas. The proposed project would expand Loop 1604 from a 2-lane rural roadway to 4-lane divided freeway section with shoulders and pedestrian accommodations within existing ROW.

Additional bridge structures over the Quintana/Union Pacific Railroad, the Medina River, and Nelson Road/Macдона-Lacoste Road/Union Pacific Railroad would be constructed as well as a new grade-separation at FM 2536 (Old Pearsall Road). The project is approximately 6.9 miles long. The purpose of the project is to improve mobility along Loop 1604 in anticipation of future growth and increased traffic.

The project would be constructed within the existing state owned right of way (ROW) which has a minimum width of 300 feet. There would be no ROW acquisition needed nor any residential or non-residential displacements as a result of the proposed project. The project would cross floodplains and waters of the US and would include features designed to mitigate impacts to these resources.

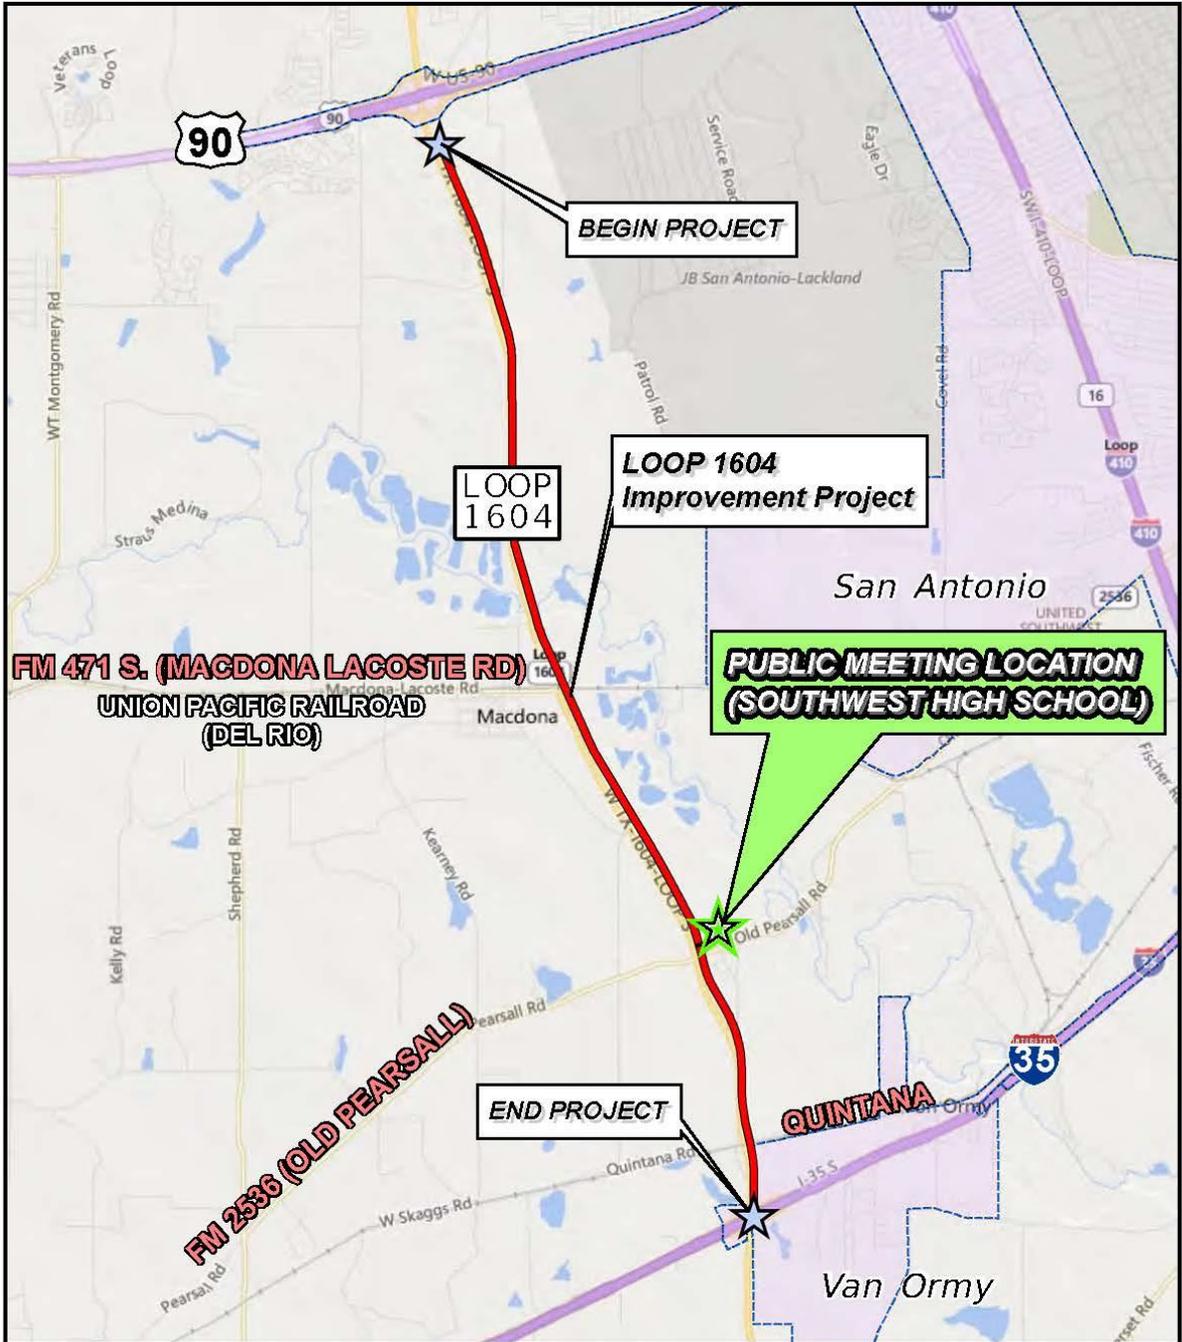

The Open House is scheduled for Thursday September 28, 2017 from 5:00 to 7:00 p.m. at the Southwest High School located at 11914 Dragon Lane, San Antonio, Texas 78525. TxDOT and consultant staff will be available to discuss the project and receive comments. The meeting will be an open house format so citizens may come and go at their convenience, and staff will be available to answer questions

The Open House will be conducted in English. Persons interested in attending the open house who have special communication or accommodation needs, are encouraged to contact Melissa Bernal, TxDOT Transportation Funding Specialist at (210) 615-5811.
