A. Comment/response matrix

SH 16 at Loop 1604 Interchange Public Meeting - October 27, 2016
Comment/Response Matrix

Committer Number	Committer Name	Date Received	Source	Comment Topic	Response
1	Mark R Godfrey	10/27/16	Comment Form	Improvements to Loop 1604 and Hausman Road/ FM 1560 intersection.	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection.
2	No Name	10/27/16	Comment Form	Supports the proposed project	Thank you for your support of the proposed project.
3	Felipe A Gonzalez	10/27/16	Comment Form	Improvements to Loop 1604 between Hausman Road and Bandera Road	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection. The Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
4	Mona Guest	10/27/16	Comment Form	Concern of wrong way driving on Loop 1604 and the frontage road	The new intersection would have adequate signs, striping, and medians to indicate where drivers should be and guide drivers through the intersection safely.
5	Andrea Mason	10/27/16	Comment Form	Supports the proposed project	Thank you for your support of the proposed project.
6	Ackles	10/27/16	Comment Form	Concerned about traffic on 1604 from Braun to I-10.	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection. The Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
7	Michael Byrnes	10/27/16	Comment Form	Supports the proposed project but has concerns about traffic on 1604	Thank you for your support for the proposed project. The Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
8	David Matarazzo	10/27/16	Comment Form	Supports the proposed project	Thank you for your support of the proposed project.
9	Ricardo Espinoza	10/27/16	Comment Form	Concerns about how it will impact eastbound drivers on the 1604 frontage road in the AM peak.	The dedicated right turn lane from Bandera Road to the Loop 1604 eastbound frontage road would be maintained as it currently is. With the new intersection configuration, the drivers who are u-turning from the westbound frontage road to the eastbound frontage road would have a signal that would keep them stopped, so they would only u-turn when their signal was green. This would allow adequate time for drivers on the eastbound frontage road to merge into the correct lane to merge onto Loop 1604.
10	Joan Daily	10/27/16	Comment Form	Wants to use recycled asphalt shingles in the top coats of construction.	TxDOT would consider using alternate construction materials during construction. The materials necessary for construction would be determined during the final design phase.
11	Harold L Dillashaw III	10/27/16	Comment Form	Wants to make sure the project area is well signed to avoid drivers from over extending the stop line with the front of their vehicles.	The new intersection would have adequate signs, striping, and medians to indicate where drivers should be and guide drivers through the intersection safely.
12	Everette F Kreider IV	10/27/16	Comment Form	Concerns about how u-turning traffic may not be able to merge smoothly and would cause congestion.	The Loop 1604 eastbound frontage road would still be two lanes, the traffic that is u-turning from the Loop 1604 westbound frontage road to the eastbound frontage road would be controlled by a signal. No eastbound frontage road lanes would be eliminated with the new intersection design.
13	Isabelle Kreider	10/27/16	Comment Form	Questions about plans to improve the access to the 1604 ramps and has concerns that AM and PM ramp entry issues.	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection. The Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
14	Andrea Mason	10/27/16	Comment Form	Supports the proposed project	Thank you for your support of the proposed project.

SH 16 at Loop 1604 Interchange Public Meeting - October 27, 2016

Comment/Response Matrix

Committer Number	Committer Name	Date Received	Source	Comment Topic	Response
15	Tia Heath	10/27/16	Comment Form	Concerned that traffic getting on to 1604 north from westbound Bandera Road would be made worse by the DLT.	The current number of Loop 1604 eastbound frontage lanes would be maintained. There would be 2 u-turn lanes coming from the westbound frontage roads which eventually merge into one lane and then merge into the eastbound frontage road lanes. However, since the u-turn lanes have their own signals, this merge would only happen when they had a green light and when their light is initially green the only other traffic that would be moving is northbound SH 16 traffic. Also, the Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
16	Christine Westerman	10/27/16	Comment Form	Concerned that traffic would still back up along SH 16 and Loop 1604 and believes congestion on Loop 1604 should be addressed.	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection. The configuration of the intersection is intended to allow adequate time to traverse the intersection safely and efficiently. The Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
17	Lauren Milton	10/27/16	Comment Form	Concerned about safety of the intersection	The new intersection would have adequate signs, striping, and medians to indicate where drivers should be and guide drivers through the intersection safely.
				Concerned that it would not improve traffic flow	The Displaced Left Turn intersection is designed to accommodate all traffic more efficiently. All of the signals in the proposed intersection would be timed so that traffic could travel with as little delay as possible.
18	James Milton	10/27/16	Comment Form	Concerned about accidents caused by the new intersection configuration.	The new intersection would have adequate signs, striping, and medians to indicate where drivers should be and guide drivers through the intersection safely.
19	Daniel Heath	10/27/16	Comment Form	Improvements to Loop 1604 entrance and exit ramps	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection. The Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
20	Stayton Woodall	10/27/16	Comment Form	Has questions about if emergency power for traffic signals would be utilized for possible power outages.	Uninterrupted power supply would be considered in design.
21	Chris Kane	10/27/16	Comment Form	Supports the proposed project but has concerns about the intersection of Leslie and SH 16	Thank you for your support for the proposed project. This project concerns improvements to the SH 16 at Loop 1604 intersection.
22	Lydia McCloskey	10/27/16	Comment Form	Concerned about getting into the subdivision after leaving some of the businesses at the interchange of SH 16 and Loop 1604.	The proposed project would not result in any access changes into or out of Stanton Run subdivision.
23	Brandon Davis (on behalf of Frances S. Findley)	10/27/16	Court Reporter and Written Comment	Commenter would like an upper deck to be built in this area	Thank you for your feedback, this project was selected for funding based on needed safety improvements. The selection of the safety funds required the project to be low-cost, which is why it could not be built as an 'upper deck' type intersection at this time. This is something TxDOT could look at on a future project.
24	Mona Guest	10/27/16	Court Reporter	Concerns with Bandera and Quincy intersection going into HEB.	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection. Bandera at Quincy Lee intersection will be evaluated as part of this project. We will look to see if needed improvements can be made at this intersection as well.
				Commenter understands the project but is concerned about safety of the intersection and how it may cause drunk drivers to drive the wrong way	The new intersection would have adequate signs, striping, and medians to indicate where drivers should be and guide drivers through the intersection safely.

SH 16 at Loop 1604 Interchange Public Meeting - October 27, 2016
Comment/Response Matrix

Committer Number	Committer Name	Date Received	Source	Comment Topic	Response
25	Gary Hoffman	10/28/16	Emailed Comment	Overall support of the project, has some concern about the access to the HEB Plus and improving safety in that area.	The proposed project would not result in any access changes into or out of HEB.
26	Sidney Dowell	10/29/16	Emailed Comment	Concerned about the lack of u-turns and the inconvenience created for drivers leaving the commercial centers at the SH 16 at Loop 1604 interchange.	The existing u-turn opportunities would remain with the proposed project. We will evaluate the possibility of adding the ability for vehicles to make a U-turn near Quincy Lee intersection.
27	Elias Escamilla III	11/3/16	Mailed In Comment	Believes that this project should be done at a later time, after improvements to Loop 1604 are made.	Currently, there are high levels of congestion during peak periods and a substantial number of turning vehicles that the intersection needs to be able to accommodate. Traffic analysis studies that were conducted indicated that the proposed intersection improvements would improve the operational capacity of the intersection and decrease congestion. The Alamo RMA has a project to add lanes to LP 1604 from SH 16 to I-35.
28	Philip Mackey	11/11/16	Mailed In Comment	Concerned that the project will cause congestion on SH 16 particularly at Stonecroft/Quincy Lee intersection.	Thank you for your feedback, this project concerns improvements to the SH 16 at Loop 1604 intersection. Bandera at Quincy Lee will be evaluated separately.

B. Notices

NOTICE OF PUBLIC MEETING
State Highway 16
at Loop 1604 Intersection
Bexar County, Texas

The Texas Department of Transportation (TxDOT) San Antonio District will hold a public meeting regarding the proposed improvements to the State Highway (SH) 16 at the Loop 1604 intersection in Bexar County, Texas. The project would extend on SH 16 approximately 1,200 feet north and south of Loop 1604 and on Loop 1604 approximately 1,400 feet east of SH 16 and 900 feet west of SH 16. The meeting will be held on Thursday, October 27, 2016, at the Sandra Day O'Connor High School Cafeteria, 12221 Leslie Road, Helotes, TX 78023. The meeting will be held in an open house format from 6:00 p.m. to 8:00 p.m. No formal presentation will be made.

The purpose of the public meeting is to present the proposed project to the public and receive input. The proposed project would realign left and right turn lanes and reconfigure the intersection to operate more efficiently. The proposed project would also include sidewalks and shared-use lanes in order to accommodate pedestrians and bicyclists and allow access to the commercial centers in the surrounding area. The purpose of the proposed project is to improve turning movements between SH 16 and Loop 1604, decrease traffic congestion and improve safety. The proposed improvements would not require any additional right-of-way. The proposed project would not result in any displacements.

Maps showing the proposed project's location and geometric design will be available for viewing at the public meeting. This information will also be available for public review upon request Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m., excluding state holidays, at the TxDOT San Antonio District Office located at 4615 NW Loop 410, San Antonio, TX 78229. For more information on the project and the above materials, please visit txdot.gov keyword "SH 16 at 1604 Intersection".

All interested citizens are invited to attend this public meeting. Written comments from the public regarding this project are requested and may be presented for a period of 15 calendar days following the meeting. Written comments may be submitted either in person at the public meeting or by mail to Mr. Jeff Anderson, RPS Klotz Associates, 1160 Dairy Ashford Suite 500, Houston, Texas 77079. Comments may also be emailed to SH16at1604@klotz.com. All written comments must be received by November 11, 2016 to be included in the Public Meeting Summary.

Persons interested in attending the meeting who have special communication or accommodation needs are encouraged to contact Melissa Bernal at 210-615-5811, or Melissa.bernal@txdot.gov at least two days prior to the meeting. Because the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

AVISO DE REUNIÓN PÚBLICA
State Highway 16
en la intersección del Loop 1604
Bexar County, Texas

El Departamento de Transporte de Texas (TxDOT) del Distrito de San Antonio llevará a cabo una reunión pública para tratar las mejoras propuestas para la State Highway (SH) 16 en la intersección del Loop 1604 en Bexar County, Texas. El proyecto se extendería aproximadamente 1,200 pies hacia el norte y sur del Loop 1604 en la SH 16, y aproximadamente 1,400 pies al este de la SH 16 y 900 pies al oeste de la SH 16 en el Loop 1604. La reunión se llevará a cabo el jueves 27 de octubre de 2016, en la cafetería de Sandra Day O'Connor High School, ubicada en 12221 Leslie Road, Helotes, TX 78023. El formato de la reunión consistirá de una «casa abierta» (*open house*) de 6:00 p.m. a 8:00 p.m. No se harán presentaciones formales.

El propósito de esta reunión pública es presentar el proyecto propuesto al público y escuchar sus ideas y opiniones al respecto. El proyecto propuesto volvería a alinear los carriles para girar a la izquierda y a la derecha y volvería a configurar la intersección para que esta funcione de manera más eficiente. El proyecto propuesto también incluiría aceras y carriles de uso compartido para brindar facilidades a los peatones y ciclistas, así como para permitir el acceso a los centros comerciales en las áreas aledañas. El propósito del proyecto propuesto es mejorar los movimientos para hacer giros entre la SH 16 y el Loop 1604, disminuir la congestión vehicular y mejorar la seguridad. Las mejoras propuestas no requerirían derecho de vía adicional. El proyecto propuesto no resultaría en desplazamientos de ningún tipo.

Los mapas con el diseño geométrico y la ubicación del proyecto propuesto estarán disponibles para ser vistos en la reunión pública. Esta información también estará disponible para ser vista por el público, previa solicitud, de lunes a viernes de 8:00 a.m. a 5:00 p.m., salvo en feriados del Estado, en la Oficina del TxDOT del Distrito de San Antonio, ubicada en 4615 NW Loop 410, San Antonio, TX 78229. Para más información sobre el proyecto y los materiales antes mencionados, por favor visite txdot.gov, y busque la palabra clave «SH 16 en la intersección 1604».

Todos los ciudadanos interesados están invitados a asistir a esta reunión pública. Se requiere que el público presente sus comentarios sobre este proyecto por escrito. Dichos comentarios pueden ser presentados durante un plazo de 15 días corridos después de la reunión pública. Los comentarios por escrito pueden ser presentados ya sea en persona (en la misma reunión pública) o por correo a Sr. Jeff Anderson en RPS Klotz Associates 1160 Dairy Ashford Suite 500, Houston Texas 77079. Los comentarios también podrán ser enviados a SH16at1604@klotz.com. Todos los comentarios por escrito deben ser recibidos hasta el viernes 11 de noviembre de 2016, inclusive, para ser incluidos en el Resumen de la Reunión Pública.

Se invita a las personas interesadas en asistir a la reunión pública, y que tengan necesidades especiales de comunicación o adaptación, a contactar a Melissa Bernal al 210-615-5811, o a Melissa.bernal@txdot.gov, al menos dos días antes de la reunión pública. Dado que la reunión pública será llevada a cabo en inglés, las solicitudes de intérpretes de idiomas u otras necesidades especiales de comunicación también deberán hacerse por lo menos dos días antes de la reunión pública. El TxDOT hará todo lo que esté a su alcance para satisfacer dichas necesidades.

El TxDOT realiza o ha realizado la revisión ambiental, las consultas y otras acciones requeridas por las leyes ambientales federales aplicables con respecto a este proyecto de conformidad con la Sección 327 del Título 23 del Código de los Estados Unidos y un Memorandum de Entendimiento con fecha 16 de diciembre de 2014, firmado por FHWA y el TxDOT.

AVISO DE REUNIÓN PÚBLICA

State Highway 16 en la intersección del Loop 1604
Bexar County, Texas

El Departamento de Transporte de Texas (TxDOT) del Distrito de San Antonio llevará a cabo una reunión pública para tratar las mejoras propuestas para la State Highway (SH) 16 en la intersección del Loop 1604 en Bexar County, Texas. El proyecto se extenderá aproximadamente 1,200 pies hacia el norte y sur del Loop 1604 en la SH 16, y aproximadamente 1,400 pies al este de la SH 16 y 900 pies al oeste de la SH 16 en el Loop 1604. La reunión se llevará a cabo el jueves 27 de octubre de 2016, en la cafetería de Sandra Day O'Connor High School, ubicada en 12221 Leslie Road, Helotes, TX 78023. El formato de la reunión consistirá de una «casa abierta» (open house) de 6:00 p.m. a 8:00 p.m. No se harán presentaciones formales.

El propósito de esta reunión pública es presentar el proyecto propuesto al público y escuchar sus ideas y opiniones al respecto. El proyecto propuesto volvería a alinear los carriles para girar a la izquierda y a la derecha y volvería a configurar la intersección para que esta funcione de manera más eficiente. El proyecto propuesto también incluiría aceras y carriles de uso compartido para brindar facilidades a los peatones y ciclistas, así como para permitir el acceso a los centros comerciales en las áreas aledañas. El propósito del proyecto propuesto es mejorar los movimientos para hacer giros entre la SH 16 y el Loop 1604, disminuir la congestión vehicular y mejorar la seguridad. Las mejoras propuestas no requerirían derecho de vía adicional. El proyecto propuesto no resultaría en desplazamientos de ningún tipo.

Los mapas con el diseño geométrico y la ubicación del proyecto propuesto estarán disponibles para ser vistos en la reunión pública. Esta información también estará disponible para ser vista por el público, previa solicitud, de lunes a viernes de 8:00 a.m. a 5:00 p.m., salvo en feriados del Estado, en la Oficina del TxDOT del Distrito de San Antonio, ubicada en 4615 NW Loop 410, San Antonio, TX 78229. Para más información sobre el proyecto y los materiales antes mencionados, por favor visite txdot.gov, y busque la palabra clave «SH 16 en la intersección 1604».

Todos los ciudadanos interesados están invitados a asistir a esta reunión pública. Se requiere que el público presente sus comentarios sobre este proyecto por escrito. Dichos comentarios pueden ser presentados durante un plazo de 15 días corridos después de la reunión pública. Los comentarios por escrito pueden ser presentados ya sea en persona (en la misma reunión pública) o por correo a Sr. Jeff Anderson en RPS Klotz Associates 1160 Dairy Ashford Suite 500, Houston Texas 77079. Los comentarios también podrán ser enviados a SH16at1604@klotz.com. Todos los comentarios por escrito deben ser recibidos hasta el viernes 11 de noviembre de 2016, inclusive, para ser incluidos en el Resumen de la Reunión Pública.

Se invita a las personas interesadas en asistir a la reunión pública, y que tengan necesidades especiales de comunicación o adaptación, a contactar a Melissa Bernal al 210-615-5811, o a Melissa.bernal@txdot.gov, al menos dos días antes de la reunión pública. Dado que la reunión pública será llevada a cabo en inglés, las solicitudes de intérpretes de idiomas u otras necesidades especiales de comunicación también deberán hacerse por lo menos dos días antes de la reunión pública. El TxDOT hará todo lo que esté a su alcance para satisfacer dichas necesidades.

El TxDOT realiza o ha realizado la revisión ambiental, las consultas y otras acciones requeridas por las leyes ambientales federales aplicables con respecto a este proyecto de conformidad con la Sección 327 del Título 23 del Código de los Estados Unidos y un Memorandum de Entendimiento con fecha 16 de diciembre de 2014, firmado por FHWA y el TxDOT.

Additional Public Outreach Methods

In addition to the newspaper publications of the public meeting notice in English and Spanish, additional outreach methods to inform the public of the SH 16 at Loop 1604 interchange public meeting included:

- Public meeting notices in English and Spanish were mailed to all of the adjacent property owners, Helotes City Hall, City of San Antonio, Stanton Run Homeowners Association, Oakridge Point Homeowners Association, and Cedar Springs Homeowners Association. See attached Mailing List.
- Notices were hand delivered to every business in all four quadrants of the intersection the week prior to the public meeting.
- TxDOT placed electronic message boards that advertised the public meeting details in all four corners of the intersection a week prior to the public meeting.
- Citizens could go to www.txdot.gov and search key words "SH 16 at 1604 Intersection" in order to get information on the public meeting. A screenshot of the public meeting page on the TxDOT website can be seen on the following page.

Open House - Proposed Improvements to SH 16 at Loop 1604

Home > Inside TxDOT > Get Involved > Hearings & Meetings > Schedule

Where: Sandra Day O'Connor High School Cafeteria (Map)
12221 Leslie Road
Helotes, TX 78023

When: Thursday, Oct. 27, 2016
6 p.m. - 8 p.m.
Open House Format

Purpose: The purpose of the public meeting is to present the proposed project to the public and receive input on the proposed improvements to the State Highway 16 at the Loop 1604 intersection in Bexar County, Texas.

Description: The TxDOT San Antonio District will hold a public meeting in an open house format regarding the proposed improvements to the SH 16 at the Loop 1604 intersection in Bexar County, Texas. The project limits on SH 16 will extend approximately 1,200 feet north and 1,200 south of Loop 1604. On Loop 1604 the project limits will extend approximately 1,400 feet east of SH 16 and 900 feet west of SH 16.

- The proposed improvements include:
- Realign left- and right-turn lanes and reconfigure the intersection to operate more efficiently
 - Include sidewalks and shared-use lanes in order to accommodate pedestrians and bicyclists and allow access to the commercial centers in the surrounding area
 - Improve turning movements between SH 16 and Loop 1604, decrease traffic congestion and improve safety

The proposed improvements would not require any additional right-of-way. The proposed project would not result in any displacements.

All interested citizens are invited to attend this public meeting. Written comments from the public regarding this project are requested and may be presented for a period of 15 calendar days following the meeting. Written comments may be submitted either in person at the public meeting or by mail to:

Mr. Jeff Anderson, RPS Klotz Associates
1160 Dairy Ashford Suite 500
Houston, Texas 77079

Comments may also be emailed to SH16@1604@klotz.com. All written comments must be received by Nov. 11, 2016, to be included in the Public Meeting Summary.

Persons interested in attending the meeting who have special communication or accommodation needs are encouraged to call (210) 615-5811, at least two days prior to the meeting. Because the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

Maps showing the proposed project's location and geometric design will be available for viewing at the public meeting. This information will also be available for public review upon request Monday through Friday between the hours of 8 a.m. and 5 p.m., excluding state holidays, at the TxDOT San Antonio District Office located at 4615 NW Loop 410, San Antonio, TX 78229.

The environmental review, consultation and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated Dec. 18, 2014, and executed by FHWA and TxDOT.

This form may be used to provide written comments on this project. Any questions placed on this form will not be considered an open records request and will not be treated as such. If you have an open records request it must be submitted under a separate letter. (Texas Transportation code, § 201.811 (a)(5)). Check each of the following boxes that apply to you:

- I am employed by TxDOT
- I do business with TxDOT
- I could benefit monetarily from the project or other item about which I am commenting

COMMENTS: The traffic from this intersection is also, in some part, also involved at the intersection of SH1604 & Hausman Rd / FM1560. The lane assignments at that intersections need to be reviewed in light of the opening of a second lane on inbound Hausman Rd.

Specifically, I believe this intersection no longer warrants two dedicated left turn lanes from FM1560 inbound to EB 1604 Bypass rd. One dedicated turn lane and a left turn/through lane would be safe and more reasonable.

I also submit my opinion that the unexpected nature of a 3-phase signal at this intersection may justify a move to the more common 4-phase signal.

Comments must be received or postmarked by **November 11, 2016** for inclusion in the public meeting record. You may submit your written comments and/or letters to TxDOT using one of the following methods:

COMMENTS: I would hope that in addition to this project, the State will also consider "swapping" the on-ramps and exit ramps from west-bound 1604 to allow the exiting traffic to saturate the access road capacity between Hausman Rd and Bandera Road. This will allow the peak volume to be absorbed by the access road and alleviate the bottle-necking of exiting traffic to affect the traffic which is remaining on 1604.

Comments must be received or postmarked by **November 11, 2016** for inclusion in the public meeting record. You may submit your written comments and/or letters to TxDOT using one of the following methods:

COMMENTS: I understand the principle of the interchange charge, but did you take into consideration of the possible drives for better has. I can see possibly way driving will be by the increase on 1604 and the postage Road.

I would like a response.
Thank you

- I could benefit monetarily from the project or other item about which I am commenting

COMMENTS: The Bigger Problem is moving
Traffic on 1604 over Bandera - from
Braun → I-10. if you speed up the
Bandera Intersection, for the SB people to go
EB on 1604, they still have NO WHERE TO
GO.

PS. The 151 Flyover is too small to handle
the volume

COMMENTS: until the traffic on 1604 eastbound from Bandera road is corrected in the morning rushhour, it doesn't make a difference what you do to Bandera road. you have to wait to get on the access road because of incredible 1604 traffic

I am otherwise generally in favor of the Bandera rd. expansion and the DLTs.

COMMENTS: Specifically, how will this impact
drivers coming from east bound drivers
on frontage Road & drivers coming from
Bondra turning east trying to get
on the 1604 RAMP in front of H & B
in the AM Peak?
for the RAMP

the queue onto 1604 makes it difficult
for drivers to get into the correct lane to
get on 1604. This change will make it harder
in the AM for traffic coming from Bondra
& Quincy & the frontage from Braun Rd.

Was this studied? What

COMMENTS: I think it is important to use recycled asphalt shingles in the topcoats of highway construction. We had a devastating hail storm in April 2016 and now have immense tonnage of roof tear-offs. The ground up shingles are a binding agent that is a big cost savings to the taxpayers as well as to the highway construction companies. It's financially smart. It's environmentally smart. Please do it.

COMMENTS: I am concerned about how traffic U-turns from Westbound Frontage Road to Eastbound Frontage Road and merges with traffic. The current proposed design ~~requires~~ ~~uses~~ eliminates lanes where this merge occurs. I am concerned that this may cause congestion. I would like the design team to consider maintaining lane count on Eastbound Frontage Road or increasing the distance over which lane eliminations occur.

COMMENTS: Nice presentations. Nice video. Thanks to the folks who were there to answer questions.

Any plans to improve the access to the 1604 ramps? Improving traffic flow + adding stop lights to control the peak of traffic helps but may not resolve the issue of AM + PM 1604 ramp entry.

COMMENTS: The traffic queue to get on to 1604 north from westbound Bandera Rd (SH 16) is backed up every morning and causes a backup on Northbound 1604 almost to Brawn Road. This traffic area is only going to be further compounded by this new plan. New lanes being introduced and merged into each other before being able to merge onto Northbound 1604 are going to cause a further bottleneck along the frontage road. And traffic issues currently slowing Northbound 1604 will not be improved through this plan. I agree that Bandera Rd is an issue, but the larger issue here is the 1604 corridor. Until that is addressed, new intersection designs are futile. Please address 1604.

COMMENTS: The displaced left turn lane is interesting,
but since it is so close to the SH16- Loop 1604
intersection, it seems like traffic would still back
up along 16 + 1604 during rush hour. And
if cars get stuck in these intersections it
could create major problems. Overall addressing
congestion on Loop 1604 is still needed.

Would this system interfere with or complicate later
efforts (hopefully) to widen Loop 1604?

COMMENTS: I feel that this project will not be a well fitted plan for our community. From what I have seen and been told it will only divert traffic into more backed up places that will need construction and it won't help ease traffic only make it worse. I am a 17 year old and as a teen I find this confusing as well as very inconvenient. I also for shadow many accidents to come from this.

COMMENTS: THIS IMPROVEMENT ADDRESSES THE WRONG ISSUE. THE BANDERA EAST-WEST TRAFFIC WAS NEVER A MAJOR ISSUE W/ TRAFFIC, THE MAJOR ISSUE WAS ENTERING AND EXITING 1604 HWY. THE ON-RAMP IS TOO SHORT FOR THE VOLUME OF TRAFFIC IN THE MORNING, BACKING UP THE TRAFFIC BOTH DIRECTIONS ON BANDERA AND 1604 (SOUTH SIDE). THE EXIT RAMP (SOUTH BOUND) IS ACCESS (FRONTAGE RD) IS TOO SHORT FOR THE VOLUME OF TRAFFIC IN THE EVENING, BACKING UP THE TRAFFIC ON 1604. FUNDS WOULD BEST BE SPENT IMPROVING THE NORTH BOUND 1604 ON-RAMP AND THE SOUTH BOUND 1604 EXIT RAMP, BEFORE MAKING THIS PROPOSED CHANGE.

COMMENTS: I appreciate your putting attention on
improving the Baydara Road - 1604 interchange.
Another issue that I was hoping might be
addressed here is the serious congestion on Leslie Rd
near O'Connor HS.
When O'Connor opened, it was the only development
in the immediate neighborhood. Even then, entering &
exiting before & after school was not easy. Almost
20 years later, now we have a Wal-Mart, an elementary
school & a NISD tennis center also using Leslie Rd
for access - but nothing has changed! It is a
major pain getting in or out of O'Connor - and it
no longer ever has to be 8:30 am or 4:10 p.m. for
there to be 20 cars lined up on Leslie and backing

up to the Wal-Mart entrance.

TxDOT does not control the entire situation, but three things could help relieve the heavy use of the Bondera & Leslie/Hausman intersections:

- (easiest) 1. a parent drop-off circle off of Bondera on the north side of the school.
- (easier) 2. a cross-over from Wal-Mart at Bondera Rd. allowing exit onto Bondera going to Helotes.
- (easy) 3. a western entrance to O'Connor from 1560

Thanks for coming +
thanks for your efforts.

SH 16 at Loop 1604 Interchange Public Meeting

October 27, 2016 – Sandra Day O'Connor High School

COMMENT SHEET (PLEASE PRINT)

NAME: Lidia McCloskey
ADDRESS: [REDACTED]
PHONE: [REDACTED] REPRESENTING: self

This form may be used to provide written comments on this project. Any questions placed on this form will not be considered an open records request and will not be treated as such. If you have an open records request it must be submitted under a separate letter. (Texas Transportation code, § 201.811 (a)(5)). Check each of the following boxes that apply to you:

- I am employed by TxDOT
- I do business with TxDOT
- I could benefit monetarily from the project or other item about which I am commenting

COMMENTS: This change in the Hwy 16 & 1604 Interchange has created mixed issues. The set up as it is proposed will extend an already costly hindrance for those of us in the Stanton Run subdivision. We will no longer be able to go to the Theater & all restaurants & shops in that business park & get home without doubling our travel. A U-turn needs to be available close to 1604 so we don't have to drive through either private property (in front of Koh's or in front of Academy) or go further down Bandera Rd by Analytical Scientific to go North again to get to our neighborhood 100' from Theater. I've been to Bandera Rd. Driving this intersection several times a day - I see the value, however it just extends our ability to get home just like having to go more importantly

Comments must be received or postmarked by **November 11, 2016** for inclusion in the public meeting record. You may submit your written comments and/or letters to TxDOT using one of the following methods:

- **Mail:** Mr. Jeff Anderson
RPS Klotz Associates
1160 Dairy Ashford Suite 500
Houston, TX 77079

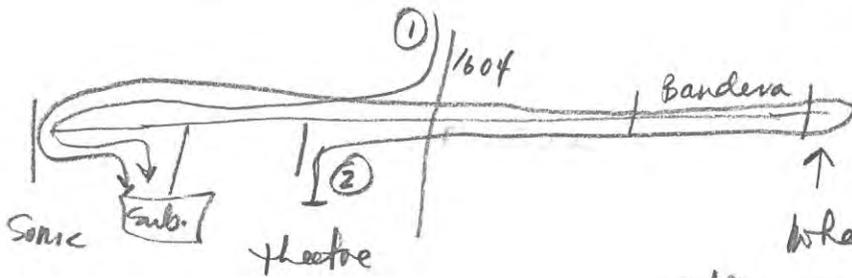

Scan the QR Code for more information

- **Email:** SH16at1604@klotz.com

For More Information go to: <http://www.txdot.gov/> and use keyword: "SH 16 at 1604 Intersection"

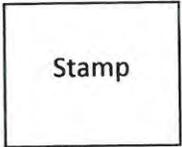

down to the Sonic and come back to get to our subdivision. Now to go home from the theatre or the restaurant on that side - we will have to again travel away from home to come back the other direction - doing 2 U-turns, only further apart.

- ① is my trail home
- ② what I will have to do to go from that business park to my neighborhood.

Where will this point end up after next review - True Rd? Or wait - I can't U-turn there...

Mr. Jeff Anderson

I, FRANCIS S. FINDLEY
HAS BEEN A RESIDENT
OF SAN ANTONIO SINCE
1965.

IN NOVEMBER, 1988,
WE MOVED TO FRENCH
CREEK VILLAGE.

AT THAT TIME, THERE
WAS LITTLE TRAFFIC

HERE - A FEW BUSINESSMEN
& A FEW HOMES.

THIS AREA OF THE CITY
HAS BLOOMED . MORE
SUBDIVISIONS & BUSINESS
I UNDERSTOOD THAT
WHEN LEON VALLEY HAD
THE UPPER LEVEL -
THAT IT WOULD

EVENTUALLY THIS
WOULD BE DONE THE
SAME UPPER LEVEL
TO 1604. DON'T KNOW
WHAT HAPPENED TO TITS-
PROJECT. EARLIER,
THEY WERE REROUTING
SOME TRAFFIC TO GRISCOM
TO 1604. DON'T KNOW

WHAT HAPPENED
TO THIS PROJECT.
MY ONLY SOLUTION TO
THE PROBLEM IS TO
BUILD AN UPPER DECK
THERE IS A PROBLEM
WITH THE ENDING
OF BANDERA RD AT
THIS LANE W/LED

TO BE

THESE ARE SOME

IDEAS - THANK YOU,

TEXAS DEPARTMENT OF TRANSPORTATION
PUBLIC MEETING
SH 16 AT LOOP 1604 INTERCHANGE

Sandra Day O'Connor High School
12221 Leslie Road
Helotes, Texas 78023

OCTOBER 27, 2016
6:00 P.M. - 8:00 P.M.

1 BRANDON DAVIS (appearing on behalf of FRANCES
2 S. FINDLEY): I, Frances S. Findley, have been a resident in
3 San Antonio since 1965. In November 1988, we moved to
4 French Creek Village. At that time there was little traffic
5 here, a few businesses and a few homes. This area of the
6 city has blossomed, more subdivisions and businesses. I
7 understand when Leon Valley had the upper level that it
8 would eventually -- this eventually would be done, the same
9 upper level to 1604. I don't know what happened to this
10 project. Earlier they were rerouting some traffic to
11 Grissom to 1604. Don't know what happened to that project.
12 My solution to this problem is to build an upper deck.
13 There is a problem with the ending of Bandera Road at this
14 lane. Need to be -- these are some ideas. Submitted by
15 Frances S. Findley.

16 MONA GUEST: I understand the principle of
17 exactly what they're trying to do, which is good. It looks
18 like it might alleviate a lot of problem issues that we
19 have; but the only thing that I do have an issue with is in
20 case -- since San Antonio has a lot of issues with drunk
21 drivers, how are we going to prevent drunk drivers from
22 going down the road the wrong way, because now they have
23 more access to do that. So I need to know how they're going
24 to prevent that.

25 And then also can they please look at and

1 check with I guess the City of San Antonio in regards to the
2 intersection at Bandera and Quincy, going into H.E.B.,
3 because it's already backed up. It's really bad there. And
4 find out how they can alleviate the traffic in regard to the
5 light.

Gary Hoffman Comment - Email

From: [REDACTED]
Sent: Friday, October 28, 2016 10:43 AM
To: SH16at1604
Subject: Open House Comments

The overall concept to improve flow at this intersection makes sense. My concern is that the downstream traffic on the 1604 going east and on the service road heading east thru the Housman and Kyle Seale intersections will not allow flow during morning rush hour. We were told that the city controls those two intersections. This project's success will require TxDOT and the city to work together to get the downstream flow corrected.

You may want to rethink access to the HEB plus. This is already an unsafe situation when trying to enter from the service road. I don't see that this is improved.. Assume drivers will try to make their way from the far left on the service road thru three lanes of traffic to the first entrance.

Thanks for your consideration and for hosting the meeting.

Gary and Dari Ann Hoffman

SH 16 at Loop 1604 Interchange Public Meeting

October 27, 2016 – Sandra Day O'Connor High School

COMMENT SHEET (PLEASE PRINT)

NAME: Sidney J. Dowell

ADDRESS: [REDACTED]

PHONE: [REDACTED] REPRESENTING: _____

This form may be used to provide written comments on this project. Any questions placed on this form will not be considered an open records request and will not be treated as such. If you have an open records request it must be submitted under a separate letter. (Texas Transportation code, § 201.811 (a)(3)). Check each of the following boxes that apply to you:

- I am employed by TxDOT
- I do business with TxDOT
- I could benefit monetarily from the project or other item about which I am commenting

COMMENTS: While I welcome any plan that facilitates better traffic flow through the intersection of Loop 1604 and State Highway 16, I am concerned about those drivers exiting the shopping center where Jim's Restaurant, IBC Bank, and numerous other shops being forced to continue east on Highway 16 before they can turn west to go back toward Helotes. Currently, these drivers cannot make a Uturn on the west side of the intersection but can make a Uturn on the east side. It is my understanding from the meeting that there will be NO Uturns allowed on either side of the new intersection. This will force westbound drivers exiting from this shopping area to proceed to the next intersection @ Stonerock/Quincy Ave and Highway 16 (where they can't make a Uturn either), or turn south on the 1604 access road and proceed to Braun for a turn around. VERY inconvenient! Is there no other ~~alternative~~ solution?

Comments must be received or postmarked by **November 11, 2016** for inclusion in the public meeting record. You may submit your written comments and/or letters to TxDOT using one of the following methods:

- I am employed by TxDOT
- I do business with TxDOT
- I could benefit monetarily from the project or other item about which I am commenting

COMMENTS: Unfortunately the proposed TxDOT project for this interchange I feel will only make things worse for frequent users of this vital interchange. Loop 1604 is already fully clogged for both morning and afternoon commutes and to try and make it easier to stuff even more traffic on both the feeder and main lanes of 1604 is ridiculous! This project should be Step 3 in a 3-step project that begins with fixing the interchange at 1604 and 10 on the Northwest side of the city followed by adding 1 or 2 more lanes to 1604 as Step 2 leading up to this already stressed interchange at 1604 and 10 and finally dealing with the proposed changes to the interchange at 1604 and Hwy 16 as Step 3. Following through on this backward thinking planning so that TxDOT can use currently available road improvement funds will only lead to an increasingly frustrated driving public which will also probably lead to an increase of accidents at this heavily used interchange.

Comments must be received or postmarked by **November 11, 2016** for inclusion in the public meeting record. You may submit your written comments and/or letters to TxDOT using one of the following methods:
