Notice of Public Meeting
SL 378 (Christoval Road)
From FM 1223 (South Chadbourne Street) to US 87
CSJ: 0159-07-007
Tom Green County, Texas

The Texas Department of Transportation (TxDOT) is proposing to widen SL 378 (Christoval Road) from FM 1223 (South Chadbourne Street) to US 87 and realign the intersection of Fairview School Road and Christoval Road in Tom Green County, Texas. To gather information from the public during of the planning process for this project **TxDOT is holding a Public Meeting on January 30, 2020 in the Training Room at the TxDOT Headquarters, 4502 Knickerbocker Rd., San Angelo, TX 76904. The meeting will begin with an open-house session at 5:30 PM and continue with a presentation at 6:00 PM.**

The proposed project includes the addition of northbound and southbound travel lanes and a center turn lane on approximately 2.4 miles of Christoval Road from South Chadbourne Street to US 87. Additionally, the project includes the realignment of the intersection at Fairview School Road and Christoval Road. The proposed roadway upgrades incorporate curb and gutter along the project limits. These upgrades are proposed to reduce congestion, provide safer turning conditions, and increase the utility of Christoval Road in the City of San Angelo. The existing ROW width is 100 feet throughout the project limits. Although additional right-of-way is required, no residential structures are expected to be displaced. Proposed project schematics and information about the tentative schedule for right-of-way acquisition will be available at the meeting and may be obtained from the district office at the address listed below.

Any environmental documentation or studies, maps showing the project location and design, tentative construction schedules, and other information regarding the project are on file and available for inspection Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m. at the TxDOT San Angelo District (address below). Additionally, responses to comments received will similarly be on file and available for inspection once they have been prepared.

You may submit comments covering the social, economic and environmental effects of the proposed location and design for this project. **Comments must be received in writing on or before February 14, 2020 to be included in the Public Meeting Records.** Comments may be mailed or emailed to the addresses listed below. If you have any questions regarding the proposed project, please contact Becki Perkins, Environmental Specialist, (325) 947-9261.

Persons interested in attending the meeting who have special communication or accommodation needs are encouraged to contact the district Environmental Specialist (contact information above) at least two days prior to the meeting. Because the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.
