

PROJECT FACT SHEET:

SH 79 at FM 1954 Intersection Improvements

Project Location Map

Proposed improvements to State Highway (SH) 79 at FM 1954 in Archer County.

The intersection of State Highway (SH) 79 and Farm-to-Market Road (FM) 1954 is being studied for realignment due to safety reasons. Crashes have occurred in the past and TxDOT believes that the skew of the intersection is a contributing factor. Annual daily traffic (ADT) counts on FM 1954 are 1,947 west of SH 79, and 2,178 east of SH 79. ADT for SH 79 is 5,145 north of FM 1954 and 3,769 south of FM 1954.

From 2014–2017, 12 crashes were reported with one non-incapacitating accident, two possible injuries and nine non-injury crashes. No fatalities were reported during this timeframe.
