**Notice
Opportunity for a Public Hearing
Loop (LP) 463
From Mockingbird Lane to Business (BS) 59T
CSJs: 2350-01-054
Victoria County, Texas**

The Texas Department of Transportation (TxDOT) is the lead agency proposing to add east bound frontage roads along the south side of Loop (LP) 463 from Mockingbird Lane to Business (BU) 59T on the east side of the City of Victoria, Victoria County, Texas. The total distance of the proposed project is approximately 2.55 miles. Pursuant to Texas Administrative Code, Title 43, §2.106, this notice is affording an opportunity for a public hearing on the proposed project. The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

The proposed project would construct east bound frontage roads along LP 463 from Mockingbird Lane to BU 59T consisting of two 12 foot travel lanes with 10 foot outside shoulders and 4 foot inside shoulders. The proposed frontage road would be separated from the main lanes by a grass median. The existing entrance/exit ramps at the BU 59T intersection would also be reconfigured. One new bridge class culvert and one small culvert would be constructed as part of the proposed project. The purpose of the proposed project is to extend the existing east bound frontage roads on LP 463 and modify the existing ramps at BU 59T to meet current design standards. The project is needed to improve safety, improve mobility in the area, and to control access.

The existing right-of-way (ROW) width varies from approximately 335 feet to 1,000 feet. The proposed project would not require additional ROW. The proposed project would not require any residential or non-residential displacements.

The proposed project would not encroach upon the 100 year floodplain, nor would it impact any wetlands. The proposed project would impact one potentially jurisdictional water feature.

Any environmental documentation or studies, maps showing the project location and design, tentative construction schedules, and other information regarding the project are on file and available for inspection Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m. at the TxDOT Victoria Area Office located at 11401 US 59N, Victoria, TX 77905 and the TxDOT Yoakum District Office located at 403 Huck St., Yoakum, TX 77995.

Any interested citizen may request a public hearing covering the social, economic and environmental effects of the proposed location and design for this project. Requests for a public hearing must be submitted in writing on or before Feb. 13, 2017, to the TxDOT Yoakum District Office, Mr. Jeffery Vinklarek, P.E., Dir. of Transportation, Planning, and Development, 403 Huck St., Yoakum, TX 77995.
