Efforts to improve the I-35 corridor throughout the state would not be possible without the support of local governments, the Texas Legislature and the U.S. Congress. In addition to the ongoing \$1.9 billion dollar expansion of I-35 through TxDOT's Waco District, a number of critical projects are underway in the Dallas/Fort Worth region to improve I-35 connections to I-820 and I-635 thanks to a partnership with the private sector. Meanwhile, TxDOT continues to plan for the long-term future of the I-35 corridor through the MY 35 citizen-driven planning process.
