

Q&A Matrix

North Houston Highway Improvement Project - Segment 3 Design-Build Project

RFQ Q&A Matrix No. 3

July 06, 2020

TxDOT Question Number	Version Issuance	Document	Reference	Sub Reference	Question	TxDOT Response
36	Addendum #2	RFQ	Section 4	Section 4.4, OS Submittal Requirements	We request a "dry run" for all proposers on uploading documents for electronic submittal using TxDOT's Dropbox Service. This service is new to the alternative delivery procurement process and where no system is fool-proof, some assurances on receipt of a successful transfer of test files prior to OS due date would be appreciated.	No dry run will be provided by TxDOT. OS submittals for recent projects (SE Connector and I-35E Phase II) have been submitted electronically by Proposers using TxDOT's Dropbox Service with no issues or concerns. In addition to any automated communications from Dropbox per Section 4.4 of the RFQ, following a Proposer's submission of its OS, TxDOT will send two emails to the Proposer's Official Representative at the email address provided by the Proposer on Dropbox.
37	Addendum #2	RFQ	Exhibit D	Section 3, Project Environmental Status	Please confirm the Final EIS is anticipated to be issued in <u>Summer 2020</u> and a Record of Decision (ROD) is anticipated to be issued in <u>Summer 2020</u> .	Confirmed.
38	Addendum #2	RFQ	Exhibit D	Section 7(j), Geotechnical Investigations, Utility Investigations, Hazardous Materials Investigations and Railroad Coordination	Is TxDOT aware of any Railroad projects or improvements for increasing the number of tracks and/or elevation of the tracks that might impact the NHHIP Segment 3 project?	Project-specific specifications will be addressed in the RFP.
39	Addendum #2	RFQ	Exhibit D	Section 7(k), Geotechnical Investigations, Utility Investigations, Hazardous Materials Investigations and Railroad Coordination	Is TxDOT aware of any METRO projects or improvements that might impact the NHHIP Segment 3 project?	Project-specific specifications will be addressed in the RFP.
40	Addendum #2	RFQ	DBA Term Sheet	Scope of Work	Can existing retaining walls NOT impacted by construction, remain in place without reconstruction and aesthetic upgrade?	Project-specific specifications will be addressed in the RFP.
41	Addendum #2	RFQ	DBA Term Sheet	Other Relief Events	Section states: (j) Construction of a new drainage improvement pursuant to a permit issued by TxDOT that requires a material modification of the Project design where either (1) DB Contractor was not provided with the permit application or (2) DB Contractor was provided with the permit application and timely notified TxDOT of the specific conflict with DB Contractor's design 1. Is TxDOT anticipating or planning at this time to add new drain to the RFP? 2. If so, when would TxDOT plan to provide this information to the DB Contractors?	Project-specific specifications will be addressed in the RFP.
