MINUTE ORDER

Page 1 of 1

ALL Districts

Pursuant to 43 TAC §1.86 and Minute Order 111294, dated March 27, 2008, the Texas Transportation Commission (commission) created an advisory committee to assist the Texas Department of Transportation (department) in the transportation planning process for the corridor planned as part of Interstate 69 (I-69).

The purpose of the I-69 Corridor Advisory Committee (committee) is to facilitate and achieve support and consensus from affected communities, governmental entities, and other interested parties in the planning of transportation improvements in the I-69 corridor and in the establishment of development plans for that corridor. The committee's advice and recommendations will provide the department with an enhanced understanding of public, business, and private concerns about the I-69 corridor, facilitating the department's communications and project development objectives and resulting in greater cooperation between the department and all affected parties during project planning and development.

In Minute Order 112527, dated December 16, 2010, the commission appointed new members to the committee. Two members have asked to be removed from the committee and will be replaced by new members. In addition, one new member from the Laredo area will be added to the committee.

Under 43 TAC §1.86, the commission may appoint members of an advisory committee from the following groups as deemed appropriate by the commission: affected property owners and owners of business establishments; technical experts; representatives of local governmental entities; members of the general public; economic development officials; chambers of commerce officials; members of the environmental community; department staff; and professional consultants representing the department.

The individuals identified in Exhibit A as new members of the committee have been selected because they will ensure the committee represents a geographic distribution across the corridor area and reflects a diverse cross-section of the widely varying stakeholder groups needed to help the department identify and reach consensus on corridor needs and potential transportation solutions.

IT IS THEREFORE ORDERED by the commission that the individuals identified in Exhibit A are appointed as members of the I-69 Corridor Advisory Committee.
