# Hurricane Response Logistics Plan

- Provide safety support for the responding district personnel. Assist with safety briefings, disseminate any pertinent safety information to the crews, and assist with competing accident/injury reports, as needed. Procure/provide personnel with any needed safety equipment. Assist affected District Safety Officer, as needed.
- Manage service contracts for food services, shower facilities, and toilet facilities. Implement additional service contracts for employee support, as needed. Manage General Service Contracts for fuel delivery to verify shipments. Support local purchasing office with any contract management needs.
- Coordinate the creation/maintenance of the base camp, as needed.
- Document and track Re-entry Crew employees and equipment. Keep employee contact information as they arrive or leave the affected district.
- Coordinate employee shift changes between the coastal and responding districts. Coordinate employee and equipment requests from the coastal district to the responding districts.
- Collect, review and process daily activity reports (DARs) for the responding district employees if needed. Collect all DARs daily at the designated offices, review time charges and verify correctness of task numbers on the DARs, and forward DARs (fax or email) to the districts of the responding employees for Maintenance Management System (MMS) data input.
- Collect and inventory damage related documentation for future reimbursement requests from FHWA and FEMA.

# CLEAN-UP OPERATIONS

# Hurricane Exercises & Workshops-Conferences

- Logistics Planning Workshop – March 21, 2013 Austin MNT EOC
- Hurricane Planning Workshop – April 23<sup>rd</sup> Bryan District Office
