Subject: Statewide Special Provision 008-030 (14), "Prosecution and Progress"

The above-referenced special provision has been approved for statewide use and is required for all projects using beginning with the April 2018 letting. However, use of this special provision prior to the April 2018 letting is at the district's option.

This special provision revises and replaces existing special provision 008-030, which adds language to standard Item 8, "Prosecution and Progress" detailing the Department's E-Verify requirements for prime contractors specific to requiring subcontractor participation.

The prime contractor must require that all subcontractors working on the project register and require that all subcontractors remain active in the DHS E-Verify system until their work is complete on the project.

Please reference the attached memorandum detailing up-to-date information on the Department's E-Verify Requirements.

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Laboratory, Maintenance, and Traffic Operations Engineers.
