The above-referenced special provision has been approved for statewide use and is required for all projects using Item 441 beginning with the June 2013 letting. However, use of this special provision prior to the June 2013 letting is at the option of the district.

This special provision proposes major changes to erection plan requirements by reference to AASHTO/NSBA S10.1 for erection plans. In addition, it requires approval of erection plans and inspection of shore towers before beginning work, addresses safety, and references analysis software.
