SPECIAL PROVISION AND/OR SPECIFICATION CHANGE MEMORANDUM 07-20

MEMO

Date: March 30, 2020

To: District Engineers

From: Jere A. Williams, P.E. 
Director, Materials and Tests Division

Subject: Statewide Special Specification 3088 (14), "Full-Depth Reclamation Using Foamed Asphalt (Road-Mixed)"

The above-referenced special specification has been approved for statewide use and is required for all projects using full-depth reclamation using foamed asphalt (road-mixed) beginning with the June 2020 letting. However, use of this special provision prior to the June 2020 letting is at the district's option.

This special specification changes the mixture design process, requires certification of field inspectors, and requires experienced foamed asphalt reclamation staff on site at the start of operation. It also addresses quality control issues per FHWA's requirements.

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Laboratory, Maintenance, and Traffic Operations Engineers.
