From: Gina E. Gallegos, P.E.
Director, Construction Division

Subject: Statewide Special Specification 6293 (14), "Adaptive Traffic Signal Control System"

The above-referenced special specification has been approved statewide use and is required for all projects using adaptive traffic signal control systems beginning with the August 2018 letting. However, use of this special specification prior to the August 2018 letting is at the district's option.

This special specification is for furnishing, installing, relocating, or removing a type 1, 2 or 3 adaptive traffic signal control (ATSC) system software and equipment at locations shown on plans, or as directed.

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Laboratory, Maintenance, and Traffic Operations Engineers.
