SUBJECT: Statewide Special Specification 3214 (04), "Injection of Latex Into Asphalt Binder"

The above-referenced special specification has been approved for statewide use and is optional for all projects beginning with the September 2010 letting.

This special specification provides a quality assurance mechanism for binder produced by injection of latex at the point of use. This requires a detailed binder design, reporting of metered volumes and inventories, and jobsite sampling.

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Maintenance, and Traffic Operations Engineers.
