SPECIAL PROVISION AND/OR SPECIFICATION CHANGE MEMORANDUM 14-18

MEMO

Date: June 8, 2018

To: District Engineers

^{DS}
GG

From: Gina E. Gallegos, P.E.
Construction Division Director

Subject: Statewide Special Specification 6304 (14), "Intelligent Transportation System (ITS) Radar Vehicle Sensing Device (RVSD)"

The above-referenced special specification has been approved for statewide use and is required for all projects using intelligent transportation systems (ITS) radar vehicle sensing devices (RVSD) beginning with the September 2018 letting. However, use of this special specification prior to the September 2018 letting is at the district's option.

This special specification revises and replaces existing statewide Special Specification 6029, all special provisions to Special Specification 6029 for installing, removing or relocating ITS radar vehicle sensing device systems. This Special Specification reflects requirements to increase safety benefits and functionality on highway systems.

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Laboratory, Maintenance, and Traffic Operations Engineers.
