MEMORANDUM**

SPECIAL PROVISION AND/OR SPECIFICATION CHANGE MEMORANDUM 20-07

TO: District Engineers **Date:** October 1, 2007
FROM: Mark A. Marek, P.E.
SUBJECT: Statewide Special Provision 166---001 (04), "Fertilizer"

The above referenced special provision has been approved for statewide use.

This special provision changes the amount of nitrogen applied uniformly from 100 lb./ac to 60 lb./ac with 50% of the nitrogen component being a slow-release sulfur coated urea. This change will ensure the Contractor does not over apply nitrogen while adding adequate fertilizer for perennial turf establishment.

This special provision is required on all projects with Item 166 beginning with the February 2008 letting. The use of this special provision prior to February 2008 letting is at the option of the district.

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Maintenance, and Traffic Operations Engineers.

Note: Original signed by Mark A. Marek
