TRAFFIC OPERATIONS ENGINEERS**

SPECIAL PROVISION AND/OR SPECIFICATION CHANGE MEMORANDUM 27-18

MEMO

Date: August 23, 2018

To: District Engineers

From: Gina E. Gallegos, P.E. ^{DS} GG
Director, Construction Division

Subject: Statewide Special Specification 6305 (14), "Lane-Use Control Signal System Equipment"

The above-referenced special specification has been approved for statewide use and is optional for construction projects using Lane-Use Control Signal System Equipment beginning with the November 2018 letting. However, use of this special specification prior to the November 2018 letting is at the district's option.

This special specification replaces SS 6082 - LED Lane Control System. This special specification provides for furnishing, installing, relocating and removing lane-use control signal (LCS) system equipment and all necessary associated electronic devices and hardware in designated field locations and equipment cabinets. This special specification reflects requirements to increase safety benefits and functionality on highway systems.

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Laboratory, Maintenance, and Traffic Operations Engineers.
