

**ATTENTION: TP&D, DESIGN, CONSTRUCTION,  
MAINTENANCE AND TRAFFIC OPERATIONS ENGINEERS  
MEMORANDUM**

**SPECIAL PROVISION AND/OR SPECIFICATION CHANGE MEMORANDUM 41-05**

**TO:** District Engineers **Date:** September 28, 2005  
**FROM:** Mark A. Marek, P.E.  
**SUBJECT:** Statewide Special Provision 420---002(04) and 420---003(04),  
"Concrete Structures"

---

The above referenced special provisions have been approved for statewide use.

Special Provision 420---003(04) clarifies the requirements for application of interim curing for bridge slabs and modifies the pay adjustment formula for under strength concrete to one that is not as harsh. Special Provision 420---003(04) is required on all construction projects, unless 420---002(04) is used, beginning with the December 2005 letting.

Special Provision 420---002(04) replaces 420---001(04) beginning with the December 2005 letting. Special Provision 420---002(04) combines 420---001(04) and 420---003(04); and can be used at the district's option in place of 420---003(04).

Please disseminate this information to your Transportation Planning & Development, Design, Construction, Maintenance, and Traffic Operations Engineers.
