
Special Provision to Special Specification 4004

Screw-In Type Anchor Foundations

Item 4004, "Screw-In Type Anchor Foundations" of the Standard Specifications, is hereby amended with respect to the clauses cited below, and no other clauses or requirements of this Item are waived or changed hereby.

Article 3. "Construction Methods". The last sentence is voided and replaced by the following:

Install anchors level, with the top of the anchor base either flush to or within no more than 1/2 in. above finished grade.
