
Special Provision to Special Specification 6083

Video Imaging and Radar Vehicle Detection System

Item 6083, "Video Imaging and Radar Vehicle Detection System" of the Standard Specifications, is hereby amended with respect to the clauses cited below, and no other clauses or requirements of this Item are waived or changed hereby.

Article 4. "Measurement", is voided and replaced by the following:

This Item will be measured by each major system component furnished, installed, made fully operational, and tested in accordance with this special specification.

The communication cable will be measured by the foot of the appropriate media type furnished, installed, made fully operational, and tested in accordance with this Specification, and other referenced Special Specifications.

Article 5. "Payment", is voided and replaced by the following:

The work performed, materials and all accompanying software furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Video Imaging and Radar Vehicle Detection Processor System," " Video Imaging and Radar Vehicle Detector," " Video Imaging and Radar Vehicle Set-up System," or " Video Imaging and Radar Vehicle Communication Cable (Coaxial)." These prices are full compensation for furnishing, placing, and testing all materials and equipment, and for all tools, labor, equipment, hardware, operational software packages, supplies, support, personnel training, shop drawings, documentation, and incidentals. A 3-conductor power cable must be included with the communication cable.

These prices also include any and all interfaces required for the field and remote communications links along with any associated peripheral equipment, including cables; all associated mounting hardware and associated field equipment; required for a complete and fully functional visual image vehicle detection system component.
