
Special Provision to Special Specification 6113

Movable Barrier Transfer Operations and Maintenance for High Occupancy Vehicle Lanes

Special Specification 6113, "Movable Barrier Transfer Operations and Maintenance for High Occupancy Vehicle Lanes," is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

Article 6113.13., "Scope of Work," is supplemented by the following:

- 13.3.2. **Align and Repair.** Align and repair portable precast concrete traffic barrier. Furnish, install, and repair; repair spalled or delaminated concrete; replace concrete with repair materials; and move and remove portable precast concrete traffic barrier. Furnish, install, move, and remove portable traffic barrier.

Article 6113.15., "Measurement," is supplemented by the following:

- 15.1. **Measurement of Align and Repair.** Measurement will be by the foot, to the nearest whole foot, along the face of the barrier wall based on the nominal lengths of the barrier sections.

Article 6113.16., "Payment," is supplemented by the following:

- 16.2. **Payment of Align and Repair.** The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Portable Traffic Barrier Alignment and Repair Maintenance" of the work category "Align and Repair." This price is full compensation for materials, hauling, equipment, labor, tools, and incidentals.
