
Special Provision to Special Specification 6377

System Integration

Special Specification 6377, "System Integration" is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

Section 6377.22., "System Integration." The first paragraph is voided and replaced by the following:

The Contractor must provide an integrated system that encompasses the following:

- integration of existing and proposed CCTV's, RVSD, Roadway Weather Information System, Embedded LED Dynamic Message Sign System, DMS, LMS, Wrong Way Driver System, Driver Feedback Speed Sign System, and all other ITS devices as shown on the plans;
- integration of existing and proposed Hub Cabinets;
- integration of proposed and existing fiber optic cable and wireless communications systems supporting ITS field equipment; and
- integration of all components into the Department and City of El Paso TMC.
