# Special Provision to Special Specification 7013

## Vacuum Cleaning

---

Special Specification 7013 "Vacuum Cleaning," is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

**Section 7013.2, "Equipment"** is voided and replaced by the following:

Furnish self-contained single unit vacuum vehicles capable of providing adequate vacuum power on an 8 in. diameter tubing to clean drain inlets, attached raceway and bridge joints. Position vacuum lines on the vehicle to operate from either the front or side. Provide other types of suction equipment, as well as hand labor and equipment operators, where necessary. Provide highly visible omni-directional flashing warning lights on work vehicles. Equipment must have a water tank with adequate spray assemblies for dust control and a dirt hopper with sufficient capacity to allow operation to progress with minimum interference to traffic.
