Special Provision to Item 3
Award and Execution of Contract

Item 3, "Award and Execution of Contract" of the Standard Specifications is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

Section 3.4.3., "Insurance," is amended with the following.

Provide project-specific insurance, not listed in Table 2, until work is complete and the need to perform work covered by the project-specific insurance is no longer necessary, as approved. The Engineer retains the right to re-require project specific insurance if it is subsequently determined that project specific insurance work is needed. Failure to obtain and maintain project-specific insurance for the impacted work may result in suspension of work or default of the Contract. If the project-specific insurance expires and coverage lapses for any reason, stop all work until the Department receives an acceptable certificate of insurance.

Provide the Department with a certificate of insurance verifying the coverage listed below.

Project-specific insurance Requirements

Type of Insurance	Amount of Coverage
Pollution Liability	Not less than: $1,000,000 total aggregate

The work performed under Pollution Liability Insurance section will be paid for by the force account "Other."
