
Special Provision to Item 192

Landscape Planting

Item 192, "Landscape Planting" of the Standard Specifications is amended with respect to the clauses cited below. No other clauses or requirements of this Item are waived or changed.

Article 192.3., "CONSTRUCTION." Is amended with the following added clauses:

3.16., **Excavations for Tree Preservation.** Remove surface materials in the locations shown in the plans, to the average depth shown, using either air-blast (Air-Spade) excavation or vacuum hydraulic removal or other method as approved by the Engineer. Excavation is to remove soil and other surface material covering tree roots, in excess, of the desired planting elevation to the depth shown in the plans. Material that is removed through this method may be disposed of off-site or reused as fill material on site.
