## Special Provision to Item 302

### Aggregates for Surface Treatments

---

For this project, Item 302, "Aggregates for Surface Treatments," of the Standard Specifications, is hereby amended with respect to the clauses cited below, and no other clauses or requirements of this Item are waived or changed hereby.

Article 302.5, "Measurement and Payment," is voided and replaced by the following:

#### 5. Measurement

- 5.1 **Aggregate.** Aggregate will be measured by the cubic yard in the trucks as delivered to the stockpile location as directed by the Engineer. Strike off the loaded aggregate for accurate measurement when directed.
- 5.2 **Loading, Hauling and Delivery of Aggregate.** The loading, hauling, and delivery of aggregate will be measured by the miles traveled by each truck from the plant to the requested stockpile location along the shortest allowed load permitted route. This route is calculated by the method specified in the plans. Miles will be paid for one way and is not to exceed 250 miles per truck. The return trip is considered subsidiary to the bid item.

#### 6. Payment

The materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Aggregate" of the types-grades specified on the plans. These prices are full compensation for furnishing the aggregate; and equipment, labor, tools, and incidentals.

The materials delivery furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Loading, Hauling, and Delivery of Aggregate" of the types-grades specified on the plans. These prices are full compensation for loading, hauling and delivery of aggregate; and equipment, labor, tools, and incidentals.
