
Special Provision to Item 672

Raised Pavement Markings

For this project, Item 672, "Raised Pavement Markings," of the Standard Specifications, is hereby amended with respect to the clauses cited below, and no other clauses or requirements of this Item are waived or changed hereby.

Article 672.2.1, "Materials," is supplemented by the following:

- **Type II-C-C.** The 2 retro-reflective faces (approach and trailing) must retro-reflect white light. The body, other than the retro-reflective faces, must be white or silver-white.

RPMs INSTALLATION RECORD

The 30-day performance period begins the day after written acceptance for each separate location. The date of written acceptance will be the last calendar day of each month for the RPMs installed that month for the completed separate project locations.
