
Special Specification 4138

Bridge Plaque

1. DESCRIPTION

Furnish and install an interpretive bridge plaque at the locations shown and in accordance with the details in the plans. The bridge plaque includes the plaque, mounting hardware, and adjustments to concrete member to which it is mounted.

2. MATERIALS

Provide materials as indicated in the plans. Provide an aluminum alloy plaque and associated mounting hardware and materials as shown in the plans.

3. CONSTRUCTION

Provide a plaque of the size and thickness shown in the plans. Provide the raised message, finish, and color as shown in the plans. Provide a scale paper or electronic proof for approval by the Engineer before fabrication.

Prepare concrete mounting surfaces including any required relief and surface preparation as indicated in the plans. Before ordering mounting hardware, submit materials documentation to the Engineer for approval.

4. MEASUREMENT

Bridge plaques will be measured by each, complete in place.

5. PAYMENT

The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Bridge Plaque". This price is full compensation for materials, hardware, equipment, tools, labor, and incidentals.
