
Special Specification 5028

Relocate Flagpole

1. DESCRIPTION

Relocate existing flagpole.

2. MATERIALS

Use materials that meet requirements of the following Items:

- Item 421, "Hydraulic Cement Concrete"
 - Item 441, "Steel Structures"
 - Item 442, "Metal for Structures"
-

3. CONSTRUCTION METHODS

Construct new flagpole foundation at the location shown on the plans or as directed in accordance with the details, dimensions, and requirements shown on the plans. Relocate the flagpole components to the new location.

Remove abandoned concrete foundations to a point 2 ft. below final grade. Backfill the hole with material that is equal in composition and density to the surrounding area. Replace surfacing material with similar material to an equivalent condition.

Accept ownership of unsalvageable materials and dispose of in accordance with federal, state, and local regulations.

4. MEASUREMENT

This Item will be measured as each flagpole relocated.

5. PAYMENT

The work performed and materials furnished in accordance with this Item and measured as provided for under "Measurement" will be paid for at the unit price bid for "Relocate Flagpole." This price will be full compensation for constructing new foundation; salvaging and relocating the existing flagpole; removing existing foundations, backfilling, and surface placement; replacement of damaged components; disposal of unsalvageable material; and equipment, labor, tools, and incidentals necessary to complete the work.
