
Special Specification 5111

Install Salvaged Fence

1. DESCRIPTION

Install cable wire fence, previously salvaged and stockpiled on project site, at the locations shown on the plans.

2. MATERIALS

Use stockpiled material available on project site. Any additional material required must have similar properties to the existing material and must be approved by the Engineer.

3. CONSTRUCTION

Install salvaged fence as directed.

4. MEASUREMENT

This item will be measured by the linear foot of fence installed.

5. PAYMENT

The work performed in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Install Salvaged Fence." The price is full compensation for hauling, preparing, and installing fence materials; additional fence materials as required; excavation, backfilling, and disposal of surplus material; connecting to existing fence; removal and trimming of brush and tree limbs; and equipment, labor, tools, and incidentals. Fence materials damaged during loading, transport, or installation will be replaced at the Contractor's expense. Post foundations will not be paid for directly but will be considered subsidiary to this item.
