
Special Specification 6092

Highway Sign Lighting Fixtures

1. DESCRIPTION.

Remove highway sign lighting fixtures.

2. REMOVAL.

Disconnect and isolate existing electrical power supply. Remove sign lighting fixtures without damaging materials, and salvage when indicated on the plans. Removal includes ballast boxes and any related components no longer needed at the locations shown on the plans. Disconnect and remove conductors from abandoned circuits. Remove abandoned conduit to a point 6 in. below final grade. Stockpile salvaged materials at the locations shown on the plans or as directed. Accept ownership of unsalvageable materials and dispose of in accordance with federal, state, and local regulations.

3. MEASUREMENT.

This Item will be measured by each highway sign lighting fixture removed.

4. PAYMENT.

The work performed and materials furnished in accordance with this Item and measured as provided under "Measurement" will be paid for at the unit price bid for "Remove Highway Sign Lighting Fixtures."

This price is full compensation for removing, salvaging, disassembling and stockpiling highway sign lighting fixtures and various components; salvaging or removing existing conduit and conductors; stockpiling of salvageable materials; disposal of unsalvageable materials; and tools, equipment, labor, and incidentals.
