Special Specification 6400
Portable Traffic Signals

1. DESCRIPTION

Furnish, operate, and maintain portable traffic signal units.

2. MATERIALS

Furnish new or used portable traffic signal units. Assure used units are in good working condition and are approved before use. A list of approved units can be found in the Department's Compliant Work Zone Traffic Control Device List. Units will remain the property of the Contractor.

3. WORK METHODS

Place the portable traffic signal units as shown on the plans or as directed. Maintain the portable traffic signal units in good working condition. Repair damaged or malfunctioning portable traffic signal units as soon as reasonably possible.

4. MEASUREMENT

This Item will be measured by the month or by the day.

5. DESCRIPTION

The work performed and materials furnished, in accordance with this Item and measured as provided under “Measurement,” will be paid for at the unit price bid for “Portable Traffic Signal.” This price is full compensation for the portable traffic signal unit, set up, relocating, removing, replacing parts, batteries, fuel, oil, and incidentals.
