
Special Specification 7187

Mechanical System Upgrade

1. DESCRIPTION

Furnish all materials, equipment, labor allowances and incidentals necessary for the construction and replacement of the mechanical systems at the Safety Rest Area.

2. MATERIALS AND CONSTRUCTION METHODS

All materials furnished and all construction methods utilized shall be in accordance with the plans, details, and attached specifications. The Contractor is required to perform a Schedule of Values for the work.

3. MEASUREMENT

This item shall be measured for completed work corresponding to the "Schedule of Values". To facilitate accurate partial payments, the lump sum dollar amount will be rounded to the nearest integer and this number will serve as the total number of units times the unit price of one dollar.

4. PAYMENT

The work performed and materials furnished in accordance with this Item and measured as provided for under "Measurement" will be paid for at the unit price bid for "Mechanical System Upgrade". This price shall be full compensation for equipment, labor, materials, tools and incidentals.
