

MEMO

January 5, 2017

To: District Engineers

From: Gregg A. Freeby, P.E.
Division Director, Bridge Division

Subject: Revised Prestressed Concrete Slab Beam Standard Drawings

Revised prestressed concrete slab standard drawings, with issue date of January 2017, are posted on the TxDOT web site and available for immediate use.

Notable revisions to the standard drawings include the following:

- All drawings comply with *2014 Standard Specifications for Construction*.
- All drawings reflect current design practices prescribed in the *Bridge Design Manual – LRFD*.
- All drawings reflect current detailing practices shown in the *Bridge Detailing Guide*.

These revised standard drawings apply to construction projects beginning with the September 2017 letting. Prior use is at the option of each District. No change in plans is necessary to begin using these standards now.

These and other bridge standard drawings are available on the Bridge Standards web page in MicroStation® “dgn” and Adobe® Acrobat® “pdf” formats. See <http://www.dot.state.tx.us/business/standardplanfiles.htm>.

For questions or comments concerning these standard drawings, please contact Taya A. Retterer, P.E. at (512) 416-2719 or Jon T. Ries, at (512) 416-2191.
