

MEMORANDUM

TO: District Engineers

DATE: December 20, 2002

FROM: Mary Lou Ralls, P.E.

SUBJECT: TxDOT New & Revised Prestressed I-Beams Standard Drawings (English)

New and revised prestressed concrete I-beam standard drawings with an issue date of December 2002 are posted at the TxDOT web site and are available for immediate use. Additional beam types have been added to the 24, 28, and 30-foot roadway widths for the substructure and superstructure. New trestle bents have been added to accommodate Type A, B, and C beams for 24, 28, and 30-foot roadways. Also, new trestle bents have been added to accommodate Type C beams for 38 and 44-foot roadways.

These and other standard drawings are available from the Bridge Standards (English) web pages in MicroStation® "dgn" and Adobe® Acrobat® "pdf" formats. Please distribute this information to the appropriate district staff and area offices as well as those consulting engineers working on TxDOT projects.

If you have questions or comments concerning these new standard drawings, please contact John Holt, P.E., at (512) 416-2212 or Jon T. Ries at (512) 416-2191.
