

# MEMORANDUM

**TO:** District Engineers **DATE:** January 30, 2003  
**FROM:** Mary Lou Ralls, P.E.  
**SUBJECT:** Revised Interior Trestle Bents for Prestressed I-Beam Standard Drawings (English)

---

Revised trestle bents for prestressed concrete I-beam standard drawings with a revision date of January 2003 are posted at the TxDOT web site and are available for immediate use. Revisions include limitations on the use of 16-inch square concrete piling and equivalent steel piling, the addition of 16-inch square concrete piling and equivalent steel piling to the bents for 38-foot and 44-foot roadway widths, and improved distribution of reinforcement in the caps.

These and other standard drawings are available from the Bridge Standards (English) web pages in MicroStation® "dgn" and Adobe® Acrobat® "pdf" formats. Please distribute this information to the appropriate district staff and area offices as well as consulting engineers working on TxDOT projects.

If you have questions or comments concerning these revised standard drawings, please contact John M. Holt, P.E., at (512) 416-2212 or Jon T. Ries at (512) 416-2191.

Note: Original signed by Mary Lou Ralls
