

MEMORANDUM

TO: District Engineers
FROM: Zane L. Webb, P.E. *ZLW*
SUBJECT: Mailbox Standard, MB-05(1) and MB-05(2)

DATE: June 13, 2005

MB-05(1) and MB-05(2)

Mailbox standard drawing MB-05 has been divided into two drawings to allow the use of one without the other as needed.

MB-05(1)

MB-05(1) has been revised on Sheet 3 of 3 by adding notes 6 and 7 that allow the use of the metal post shown for the Type 2 Support/Foundation to be used with the Type 1 and Type 4 Support/Foundation. It also allows the use of a White Powder Coat finish over the galvanized finish.

MB-05(2)

MB-05(2) details of mailbox locations with respect to the edge of the roadway have been revised. The revisions are shown in the following locations:

- **Case 2. Backside delivery**
- **Plan case 1**

8 feet and 6 feet minimum required dimensions are now shown as **desirable dimensions**.

These revised standards are located in the following web page:

<http://www.dot.state.tx.us/business/standards.htm>

If you have any questions or comments concerning the revised standards, contact Larry Buttler, P.E. at (512) 416-3240 or Justin Obinna, P.E. at (512) 416-3108.
