LEGEND
Sediment Control Fence

GENERAL NOTES

1. Vertical tracking is required on projects where soil distributing activities have occurred unless otherwise approved.
2. Perform vertical tracking on slopes temporarily stabilized.
3. Provide equipment with a track undercarriage capable of producing linear soil impressions totaling at least 12" in length by 2" in width by 1/4" to 1/2" in depth.
4. Do not exceed 12" between track impressions.
5. Install continuous linear track impressions where the minimum 12" length impressions are perpendicular to the slope or direction of water flow.

VERTICAL TRACKING
