

MEMORANDUM

TO: District Engineers **DATE:** April 1, 2011
FROM: Mark A. Marek, P.E. *mm*
SUBJECT: Revised Roadway Standards

The following changes have been made to the roadway standard sheets.

These sheets will be applicable to any construction project utilizing a barrier gate. The new standard is available from the Roadway Standards web page in Microstation® "dgn". See <http://www.dot.state.tx.us/business/standardplanfiles.htm>. Please distribute this information to the appropriate district staff and area offices, as well as consulting engineers working on TxDOT projects.

The following represents a summary of the individual sheet changes:

BG-11. BG-11 (2 sheets) is a new standard that provides of the installation and fabrication of a non proprietary barrier gate. Sheet 1 depicts the steel gate components, and sheet 2 depicts the concrete barrier transition ends. Fabrication details for the barrier gate steel components are available from the Roadway Standards web page under the Design Guidelines.

If you have any questions or need additional information concerning these standard details, please contact Rory Meza, P.E., Director of the Roadway Design Section, Design Division, at (512) 416-2678.
