Subject: Revised Roadway Standards

The following changes have been made to the roadway standard sheets. The sheets will be applicable to all new construction projects beginning with July 2016 letting. The use of these sheets prior to that date is at the option of the district. The new standards are available from the Roadway Standards web page in Microstation® "dgn" and Adobe "pdf" format.

See <http://www.dot.state.tx.us/business/standardplanfiles.htm>. Please distribute this information to the appropriate district staff and area offices, as well as consulting engineers working on TxDOT projects.

The following represents a summary of updated proprietary company names and contact information from our roadside safety device crash cushion/attenuator inventory. The information will be shown on each of the respective roadway standard title blocks and described within the General Note, number one (#1). The standard updates are as follows:

- General Note, number one (#1) has been standardized for all crash cushion/attenuators.
- The classification type will be displayed left of the title block: Low Maintenance, Reusable, or Sacrificial.
- The crash cushion, BrakeMaster (BRST(1)-10) will be removed from our website and not replaced.
