Subject: Revised Roadway Standards and Details

The following changes have been made to the roadway standards sheets.

The standard sheets will be available for all new construction projects beginning with the March 2026 letting. The use of these sheets prior to that date is at the option of the district. The new standards are available from the Roadway Standards web page in Microstation® ".dgn" and Adobe ".pdf" format. See <http://www.dot.state.tx.us/insdot/orgchart/cmd/cserve/standard/rdwylse.htm> Please distribute this information to the appropriate district staff and area offices, as well as consulting engineers working on TxDOT projects.

The following represents the updated standard sheets or design details.

EPIC The Environmental Permits, Issues and Commitments detail sheet is a replacement of the 2015 version. The EPIC detail sheet has been revised to enhance and streamline the template's standard language and improve formatting for clearer communication with the Contractor. Sections I, II, and VI have undergone significant revisions, while other sections have received minor updates.

EPIC(GUIDE) The EPIC Sheet Guidance document is a replacement of the 2012 version and has been updated to align with the updated EPIC detail sheet.

JS-25 The JS-25 is a replacement of the JS-14 standard. Updates include clarifying the use of asphalt board conforming to DMS-6310 in details. General notes updated to clarify joint sealant class to be utilized.

REPCP-25 The REPCP-25 is a replacement of the REPCP-14 standard. Updates include Item 720 reference in General Notes for half-depth concrete repair. Delineation of guidance for repair of CRCP, JRCP, and CPCD. Additional dimensioning and callouts are also provided in details.
