

# MEMORANDUM

**TO:** District Engineers **DATE:** March 1, 2011

**FROM:** David P. Hohmann, P.E., Director *David P. Hohmann*  
Bridge Division

Carol T. Rawson, P.E., Director *Carol T. Rawson, P.E.*  
Traffic Operations Division

**SUBJECT:** RIP(1)-(4)-11 and RID(FND)-11 Traffic  
Engineering Standards

---

The Bridge Division (BRG), with assistance from the Traffic Operations Division (TRF), has revised the Roadway Illumination Poles (RIP) and Roadway Illumination Details (RID) traffic engineering standard sheets.

The RIP(1)-(4)-11 and RID(FND)-11 standard sheets are revised to reflect needed changes to anchor bolt assemblies and to define shoe base and T-base pole designs for mounting heights between 31-ft and 39-ft, inclusive. The standard sheets can be found at the following web address:

<http://www.dot.state.tx.us/insdot/orgchart/cmd/cserve/standard/toc.htm>

The sheets will be applicable to all new construction projects beginning with the June 2011 letting.

If you have any questions or need additional information concerning these standard details, please contact Tim Bradberry, Bridge Division, at (512) 416-2179 or Michael Chacon, Traffic Operations Division, at (512) 416-3120.
