

# MEMO

March 23, 2015

To: District Engineers

From: Carol T. Rawson, P.E., Director *Carol T. Rawson, P.E.*  
Traffic Operations Division

Subject: Re-Issue of Delineator & Object Marker (D&OM(3)-15A) Standard Sheet

There was an omission on the D&OM(3) sheet of the Delineator & Object Marker (D&OM) Standard Sheets that were issued on March 16, 2015 requiring that the sheet be re-issued. A condition was mistakenly left off the Delineator and Object Marker Application and Spacing table on D&OM(3)-15 and is being added back as follows:

### Delineator and Object Marker Application and Spacing

Condition	Required Treatment	Spacing
Bridge Rail (steel or concrete and Metal Beam Guard Fence)	Bi-Directional Delineators when undivided with one lane each direction  Single Delineators when multiple lanes each direction	Equal spacing (100' max) but not less than 3 delineators

The acronym used to identify the sheet will include a "-15A" extension to indicate it is the second sheet issued in 2015. The D&OM standard sheets may be used immediately. Any plan sets that incorporated the 2015 D&OM standards issued last week should immediately replace D&OM(3)-15 with the re-issued D&OM(3)-15A.

The re-issued D&OM(3)-15A is available in MicroStation and PDF formats at the following web address:

<http://www.dot.state.tx.us/insdot/orgchart/cmd/cserve/standard/toc.htm>.

If you have any questions, please contact Michael Chacon at (512) 416-3120 or me at (512) 416-3200.
