Director, Traffic Safety Division

Subject: Centerline Buffer Standard Sheets

DocuSigned by:

Michael A. Chacon, P.E.

06D7FD6C5CEC46B...

The Traffic Safety Division has developed the Centerline Buffer Standard Sheets, CLB(1)-23 and CLB(2)-23. These standard sheets provide details for creating a buffer between opposing directions of traffic on undivided highways. This has been accomplished by modifying the placement of rumble strips, centerline markings, and raised pavement markers when compared to existing standards.

The standard sheets may be used immediately and are available in MicroStation® “dgn” and PDF formats at the following address:

<http://www.txdot.gov/insdot/orgchart/cmd/cserve/standard/toc.htm>

If you have any questions, please contact Rafael Riojas at (512) 416-3120 or me at (512) 416-3200.
