

Memorandum

TO: All District Engineers

Date: October 8, 2002

FROM: Carlos A. Lopez, P.E.

SUBJECT: Standard Sheet – ED(4) – 2002

Standard sheet ED(4) – 2002 covers details for electrical services. Due to deregulation in the electric utility industry, power companies have instituted many extra charges. Frequently, these charges are not known until power is requested. Hence, we have added a statement on ED(4) to handle these charges the same way that we have always handled charges from utility companies for power line extensions. That method is by force account work, which pays the invoice cost from the utility company with no mark-up for the contractor. Use of this standard may begin with the February 2003 letting.

If you have any questions, please contact Karl Burkett, P.E., at (512) 416-3121 or me at (512) 416-3200.
