

MEMORANDUM

TO: All District Engineers
FROM: Carlos A. Lopez, P.E.
SUBJECT: PM(2)-00A, PM(3)-00A and FPM(1)-00A
Standard Sheets

DATE: February 7, 2008

The Traffic Operations Division (TRF) has revised the following pavement marking standard sheets:

- Position Guidance Using Raised Pavement Markers Reflectorized Profile Markings (PM(2)-00A).
- Typical Standard Freeway Pavement Markings with Raised Pavement Markers (FPM(1)-00A) standard sheets.

The revisions are necessary due to cost reductions within the department and to improve statewide consistency for placement of raised pavement markers (RPM's). RPM's at 40-foot centers will only be allowed in "No Passing" zones.

The revised standard sheets have been attached for your reference and can be found at the following web address:

<http://www.dot.state.tx.us/insdtdot/orgchart/cmd/cserve/standard/toc.htm>

The Supplemental Markings Using Raised Pavement Markers Reflectorized Profile Markings (PM(3)-00A) standard sheet is no longer an approved standard sheet and should not be used in construction or maintenance projects.

If you have any questions or comments concerning the revised standards, please contact Michael Chacon at (512) 416-3120 or me at (512) 416-3200.
