

Hydraulic Cement

Material Producer List

Materials & Tests Division

Hydraulic Cement

The following cements are prequalified in accordance with DMS-4600, “Hydraulic Cement.”

The Department reserves the right to conduct random sampling of prequalified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, terminal, shipping container, and concrete plant. The Materials & Tests Division (MTD) reserves the right to test samples to verify compliance with DMS-4600.

For more information, contact MTD’s Rigid Pavements and Concrete Materials Section at (512) 506-5858.

* Type I/II meets both Type I and II specifications.

1. Sold under the name EcoMent Spec.

NOTE:

- Only cement types shown are pre-qualified. Job samples are not required for pre-qualified cements.
- Cements not on this pre-qualified list must be sampled in accordance with the Department's [Guide Schedule of Sampling and Testing for Design-Bid-Build Projects](#) or [Guide Schedule of Sampling and Testing for Design-Build Projects](#), as applicable.

▪ **Key:**

IP(XX): Portland cement blended with a minimum of XX% Class F fly ash.

MS: Moderate Sulfate Resistance

HS: High Sulfate Resistance
