

Galvanizing Repair Paints

Material Producer List

Materials and Tests Division

Galvanizing Repair Paints

The following list of products and manufacturers meet the requirements of DMS-8103, “Galvanizing Repair Paints.”

The Department reserves the right to perform random audits of test reports and to conduct random sampling and testing to evaluate the performance of materials and to verify conformance with DMS-8103. Department representatives may sample material from the manufacturing plant, steel fabrication shops, and project sites.

For more information, contact the **Materials and Tests Division’s** Coatings and Traffic Materials Section at (512) 506-5870.
