Flexible Delineator and Object Marker Posts

The following manufacturers for flexible delineators and object marker posts have complied with DMS-4400, "Flexible Delineator and Object Marker Posts." This Specification describes the procedure for pre-approval.

The materials listed below are pre-qualified for use where DMS-4400 is referenced. These materials require no further testing before use unless deemed necessary by the Project Engineer or Materials and Tests Division (MTD). Tex-737-I, "Sampling Flexible Delineator and Object Marker Posts," describes the sampling method.

The Department reserves the right to conduct random sampling of pre-qualified, certified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. The MTD reserves the right to test samples to verify compliance with DMS-4400,
