Penetrating Concrete Surface Treatments

The following manufacturers for penetrating concrete surface treatments have complied with DMS-8140, “Penetrating Concrete Surface Treatment,” which describes the material requirements and the pre-qualification procedure.

The Department reserves the right to perform random audits of test reports and to conduct random sampling and testing to evaluate the performance of pre-qualified materials and to verify compliance with DMS-8140. Department representatives may sample material from the manufacturing plant and the project site.

For more information, contact the MTD’s Coatings and Traffic Materials Section at (512) 506-5870.
